"The 3rd Khon Kaen International Course in Advanced Endoscopic Sinus Surgery & Skull Base Surgery: Hands-on Dissection in Fresh Cadavers"

January 2014, 13-16th
HOSTED BY

Department of Otorhinolaryngology
Department of Surgery
Department of Anatomy
Department of Radiology
Northeastern Endoscopic and Laparoscopic Surgery Center of Excellence, Thailand

Faculty of Medicine, Khon Kaen University
INTRODUCTION

Endoscopic Sinus and Skull Base Surgery have been accepted worldwide as the most popular surgical technique for paranasal sinus and skull base diseases. The favorable results of ESS do not only depend on the modern instruments, pre- & post-operative care but also on the surgeon’s skills and their knowledge on the gross and radiologic anatomy of the nose & paranasal sinuses.

This hands-on workshop for endoscopic sinus surgery has been held since 2000 by the division of Rhino-allergy of Department of Otorhinolaryngology in co-operation with Department of Anatomy and Department of Radiology, Faculty of Medicine, Khon Kaen University. This will be your opportunity to gain knowledge in endoscopic sinus surgery as well as experiences by practicing on the fresh cadavers.

The workshop of this year will focus on practical aspects not only on sinus surgery, but mainly on skull base surgery.

INTERNATIONAL GUEST SPEAKERS

Prof Joong-Sae Cho  
Dept. of Otolaryngology, Kyung Hee University, Korea

Assoc Prof Siow Jin Keat  
Tan Tock Seng Hospital, Singapore

Assoc Prof Ang Beng Ti Christopher  
National Neuroscience Institute, Singapore

Assoc Prof Allen Ping-Hung SHEN  
Kuang Tien General Hospital, Taiwan

Dr. Leong Jern-Lin  
Ascent Ear Nose Throat Specialist Group., Mount Elizabeth Medical Center, Singapore

Dr. David Shin  
Changi General Hospital, Singapore

LOCAL SPEAKERS

Assoc Prof Songklot Aeumjaturapat  
Faculty of Medicine Chulalongkorn University, Bangkok

Assoc Prof Sanguansak Thanaviratananich  
Faculty of Medicine Khon Kaen University, Khon Kaen

Assist. Prof Kornklat Snidsvong  
Faculty of Medicine Chulalongkorn University, Bangkok

Assist. Prof Ake Hansasuta  
Faculty of Medicine Ramathibodi Hospital, Bangkok

Assist. Prof Boonsarm Rungpuvapat  
Faculty of Medicine Ramathibodi Hospital, Bangkok

Dr. Wuttipong Tirakotai  
Prasad Neurological Institute, Bangkok

AGENDA

Jan 13, 2014 (Basic FESS I)
• Why and What in FESS
• IGS: A Bonus to Learning, Safety and Precision in FESS
• Macroscopic, Endoscopic and Radiologic Anatomy
• Tips for Endoscopic Maxillary, Ethmoids & Sphenoid Surgery
• Stepwise Demonstration
• Hands-on Dissection

Jan 14, 2014 (Basic FESS II)
• Tips in Frontal Sinus Surgery
• Optimised surgical field in ESS
• Endoscopic DCR
• Endoscopic Septoplasty
• Prevention & Dealing with Intraoperative Bleeding
• Stepwise Demonstration
• Hands-on Dissection

Jan 15, 2014: Advanced FESS & Skull Base Lecture (Part I)
• Endoscopic Anterior Cranial Resection
• Endoscopic Approach for Pituitary Surgery
• Extended Endoscopic approach for Macro-Pituitary Adenoma
• Endoscopic Transnasal Cranietomy
• Endoscopic CSF & Skull Base Repair
• Endoscopic Approach to Orbital Lesion and Optic Nerve Decompression
• Stepwise Demonstration of Endoscopic Skull Base Surgery
• Hands-on Fresh Cadaveric Dissection

Jan 16, 2013: Advanced FESS & Skull Base Surgery (Pt II)
• Endoscopic Vidian neurectomy
• Endoscopic Transpterygoid Approach
• Endoscopic Transnasal Approach for Sinonasal Malignancy
• Endoscopic Nasopharyngectomy
• Pre- & Post-operative management for Sinus & Skull Base
• Stepwise Demonstration in Fresh Cadaver (Part II)

Schedules & Topics May be Subjected to Change as Appropriate
